## **Digital images**

The collections of the Museum für Gestaltung Zürich (Museum of Design Zurich) cover some 470,000 objects. Some items are in the online database [www.emuseum.ch](http://www.emuseum.ch)

One of the museum's highest priorities is to provide large parts of its collections in digital format in the near future. However, for the time being the majority of objects are documented by means of analog photographs in various format.

All photographs are unprocessed i.e. they replicate the exhibits along with any signs of wear and tear, damage etc.

Special orders will be charged on the basis of costs incurred.

Price status 06. 2019.

Subject to amendments to prices and conditions without notice.
